microeconomics case studies and applications contains case studies that explore core microeconomics concepts by focusing on current events in economics and providing a theory refresher for each section and questions designed to be a companion text to larger microeconomics texts this resource

offers a useful time saving alternative to sourcing online articles and journals as a first year text it teaches best practice use of case studies and acts as a stepping stone for students who will source and use articles as they progress through their course each case study presents a different application of a core concept or theory as well as the main text which presents the application of the core concept each case study contains a range of extra material a theory refresher section provides a quick way for students to revise a key concept or theory that is important for understanding the application in that case study

this is the fourth in a series of annuals from the national bureau of economic research that are designed to stimulate research on problems in applied economics to bring frontier theoretical developments to a wider audience and to accelerate the interaction between analytical and empirical research in macroeconomics contents the monetary history after twenty five years new evidence on the money output relationship christina romer and david romer restrictions on financial intermediaries and implecations for aggregate fluctuations canada and the u s 1870 1908 stephen williamson the thatcher miracle charles bean with jim symons the revised nber indexes of coincident and leading economic indicators james stock and mark watson consumption income and interest rates the euler equation approach ten years later john campbell and n gregory mankiw u s earnings and income inequality recent trends frank levy business cycle models with increasing returns kevin murphy andrei shleifer and robert vishny

real property in the form of investment ownership and use pervades almost every aspect of daily lives and represents over 40 of australia s wealth such assets do not exist in isolation they are dynamic and forever evolving impacted by a range of physical economic demographic legal and other forces consequently a true appreciation of individual assets and of the property sector as a whole demands an understanding of both the assets themselves and the context and markets in which they exist the sector is complex and on the face of it confusing it is however not without logic and underlying themes and principles this book provides a wider understanding of how the real property sector works it covers topics such as the nature of real property and its functions economic drivers valuation principles legal and tenure parameters property taxation land development and subdivision asset and property management and sustainability all critical components in this complex and critically important sector it provides a wide and balanced perspective for experienced practitioners investors students and anyone involved in property decision making or wishing to secure a deeper understanding of these areas the book integrates research based theory with practical application and first hand insights into a sector that underpins the australian economy its communities and its sustainability

the dominant schools of neoclassical and neoliberal economics tell us that material scarcity is an inevitable product of an insatiable human nature against this costas panayotakis argues that scarcity is in fact a result of the social and economic processes of the capitalist system the overriding importance of the logic of capital accumulation accounts for the fact that capitalism is not able to make a rational use of scarce resources and the productive potential at the disposal of human society instead capitalism produces grotesque inequalities and unnecessary human suffering a toxic consumerist culture that fails to satisfy and a deepening ecological crisis remaking scarcity is a powerful challenge to the current economic orthodoxy it asserts the core principle of economic democracy that all human beings should have an equal say over the priorities of the economic system as the ultimate solution to scarcity and ecological crisis

this proceedings volume analyzes the impact of globalization on international financial flow as well as harmonized financial reporting featuring contributions presented at the 18th annual conference on finance and accounting held at the university of economics in prague this book examines the economic consequences of the globalized world in the sphere of corporate and public finance monetary systems banking financial reporting and management accounting the global perspective is accompanied by local specific cases studies including those from emerging markets in addition the combination of micro and macroeconomic approaches provide insights on the behavior of all relevant stakeholders in the process and the results of dynamic pressures surrounding global capital markets and international investments this book will serve as a useful resource for scholars and researchers practitioners and policy makers in the fields of finance economics and accounting
